

Survey Report

Rogers Polling for City News Content

Date: 20 / March / 2025 Project: 83079-020

Methodology

Method

Online survey among respondents 18 years of age or older. (Canadian sample: **n= 1,504**).

This included:

- n=201 Toronto (metro) residents
- n=151 Vancouver (metro) residents
- n=151 Calgary (metro) residents
- n=150 Edmonton (metro) residents

Respondents had the option of completing the survey in French and English and were randomly recruited using LEO's online panel.

Weighting

Results were weighted according to **age, gender, region, and education** to ensure a representative sample of the Canadian population (see respondent profile section).

When

Data collection from March 10 and 13, 2024.

Margin of error

For comparison purposes, a probability sample of this size yields a margin of error no greater than **±2.49%**. A probability sample of n=150 (Edmonton, Calgary, Vancouver) yields a margin of error no greater than **±8.00%**. A probability sample of n=201 (Toronto) yields a margin of error no greater than **±6.91%**.

Significant differences

Data shaded in pink indicate a significantly higher proportion than that of other respondents.

Rounded data

The numbers presented have been rounded up. However, the numbers before rounding were used to calculate the sums presented and might therefore not correspond to the manual addition of these numbers.

Questions

Have questions about the data presented in this report? Please contact Andrew Enns, Executive Vice-President, Central Canada at the following e-mail address: <u>aenns@leger360.com</u> or Jennifer McLeod Macey, Senior Vice-President, Central Canada Public Affairs & Communications, at <u>jmcleodmacey@leger360.com</u>.

Key Highlights

Some of the key highlights of our survey ...

Liberal Party Leads: If a federal election were held today, the Liberal Party of Canada (LPC) leads with 40%, while the Conservative Party of Canada (CPC) on their tail with 37% among decided voters.

Regional & Demographic Differences: CPC dominates in Alberta and the Prairies, while the Libs perform better elsewhere. Men are more likely to vote CPC, while Liberal voting intention shows no significant gender differences. Some past NDP voters also show signs of shifting toward the Liberals.

Best Prime Minister Candidate: Similarly, 34% of Canadians consider Mark Carney the best choice for Canada's next Prime Minister, while 30% prefer Pierre Poilievre. Men are more likely to support Poilievre, whereas Canadians aged 55+ are more likely to favour Carney.

2

1

Top Issues for Canadians: The most important issue for Canadians right now is the US, followed by fiscal matters. Improving Canada-US relations tops the list of priorities for the federal government to focus on; though cost of living is a higher priority for younger adults and CPC voters.

Leader Best Equipped to Handle Top Issues: Between Mark Carney and Pierre Poilievre, 37% of Canadians see Mark Carney as better equipped to manage US-Canada relations under a Trump administration, while 30% favour Pierre Poilievre. Conversely, 31% believe Poilievre is best suited to handle cost of living and affordability, compared to 28% for Carney.

Key Highlights

Lege

Some of **the key highlights** of our survey ...

3

Concerns About US Relations: Most Canadians are concerned about Donald Trump's references to Canada as the "51st state" and the growing US-Russia ties. Nearly all oppose the idea of Canada joining the US, with the top reasons being loss of identity, culture, and sovereignty. While still a minority, newcomers, younger Canadians and men are more open to the idea.

Shifting Spending Habits Amid Tensions: A majority are increasing their purchases of Canadian products and half plan to or are already subscribing more to Canadian channels or streaming services. The propensity to take action is even greater among older Canadians.

4

Limited Support for Key Policies: Regardless of the election outcome, Canadians support continuing the foreign homebuyer ban. There is less support for some other policies, including carbon pricing. At the time of survey, most Canadians felt the Carbon tax should be reassessed, with four in ten supporting its complete removal.

Immigration & Housing: Two thirds believe immigration drives up housing costs, and most think the government isn't doing enough.

Key Highlights

Some of the key highlights of our survey ...

Regional Spotlight:

5

British Columbia: Four in ten British Columbians rate David Eby as doing enough to handle US relations, with him ranking second to Premier Ford and ahead of Premier Smith.

Vancouverites are likely to vote Liberal in the upcoming federal elections and think the party will be best for their city; they also think Carney will be the strongest leader for US relations.

Alberta: The public does not hold favourable opinions about Premier Smith's handling of the AHS situation or US relations.

An overwhelming majority Calgarians will vote CPC and believe the Conservative Party is best for their city, with Poilievre also seen to be the preferred leader for managing US relations.

Edmontonians also lean Conservative but to a lesser extent. Moreover, 33% favour Carney for managing US relations and 30% back Poilievre.

Ontario: Six in ten think Doug Ford is doing enough to handle US relations, significantly better than the other premiers assessed.

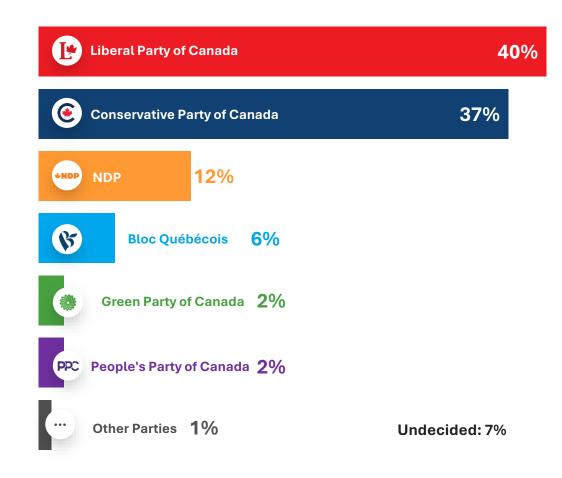

Torontonians are leaning Liberal for the upcoming Federal election and think the party would be best for their city and Carney best for US relations.

Federal Vote

Among decided voters, the Liberal party currently has a slight lead over the Conservative party.

CP01. If a FEDERAL election were held today, for which political party would you be most likely to vote? Base: Committed Voters (n=1,324) except for the Bloc Québécois, Quebecers only

The CPC leads in Alberta and the Prairie provinces.

Men are more likely than women to say they'd vote Conservative, while Liberal voting intention shows no significant gender differences. Women are more likely than men to support NDP if the elections were held today.

Evolution of Voting Intentions in Canada

Self-reported vote in the last federal election gives us an indicator of party affiliation.

Q9.1 Thinking back to the last Federal election in October of 2021, which Party did you vote for then? Base: All respondents (n=1,504)

Those outside of Alberta and the prairies were more likely to say they voted for Justin Trudeau's Liberal Party. Quebecers were least likely to vote CPC.

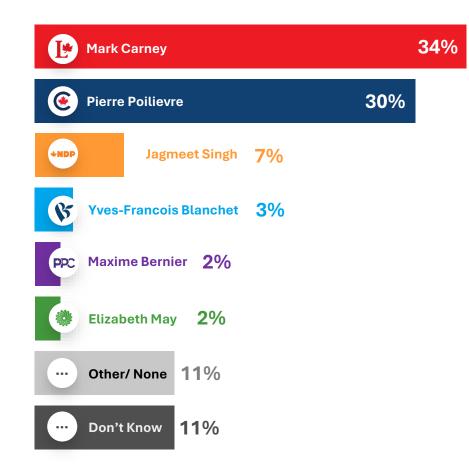

Men are more likely to say they voted for Erin O'Toole's Conservative Party in the last federal election.

The Liberals are considered better equipped to manage US relations, while the CPC fare better on fiscal matters.

A sizeable proportion of Canadians admit they don't know which party is best to manage each of the issues.

Q2.4 Which political party do you believe is best equipped to manage each of the following issues? Base: All respondents (n=1,504)

■ Conservative Party ■ Liberal Party ■ New Democratic Party ■ Bloc Quebecois ■ Green Party ■ Other ■ I don't know

Current Affairs

Focusing on US relations, there is regional variance on which party is better equipped to manage this issue.

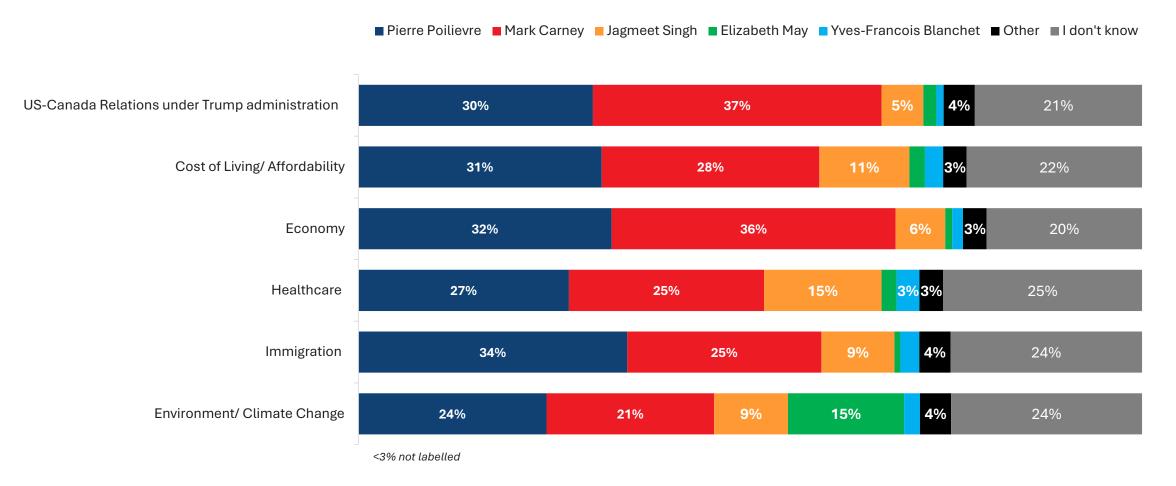

While men are equally as likely to say Liberal as they are to say CPC, they're more likely to say CPC than women. Women, on the other hand, are more likely to say they're unsure. Older Canadians are more likely to feel the Liberals are better equipped to manage the issue.

Carney is considered the better leader to address issues around US relations and the economy; Poilievre is expected to better handle immigration.

A sizeable proportion of Canadians admit they don't know which leader is best equipped to manage each of the issues.

Q2.5 And, which leader do you think will best manage each of the following issues? Base: All respondents (n=1,504)

Focusing on US relations, there is also regional variance on which candidate is better equipped to manage this issue.

While men are equally as likely to say Carney as they are to say Poilievre, they're more likely than women to pick Poilievre to manage the issue. Women, on the other hand, are more likely to say they're unsure. Older Canadians are more likely to feel Carney is better equipped to manage the issue.

Canada-US Relations

A majority are concerned by Donald Trump's repeated reference to Canada as the 51st state and the growing closeness between the US and Russia.

While most Canadians agree that retaliatory tariffs are an effective response, there is less consensus as to whether some of the border issues raised by President Trump are valid concerns.

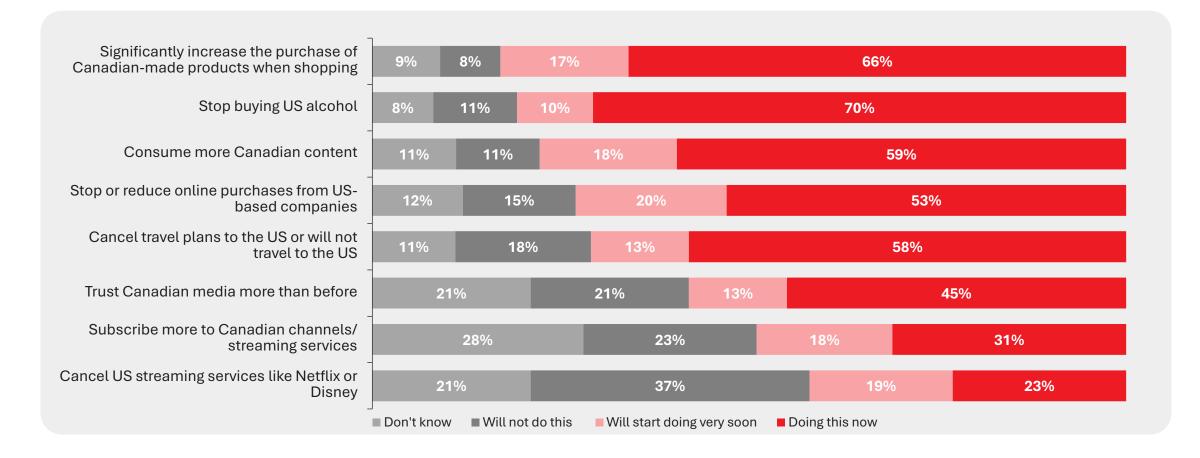

Men and those 55+ are more apt to believe that retaliatory tariffs are an effective way for Canada to respond to US trade restrictions.

Those 55+ are also more likely to be concerned by the 51st state comments and the growing closeness between the US and Russia. Albertans are less convinced that retaliatory tariffs are an effective way for Canada to respond to US trade restrictions compared to those in BC, SK/MB, or Ontario.

Leger

Canadians overwhelmingly oppose becoming the 51st state.

A large majority are not just opposed to becoming the 51st state but *strongly* opposed.

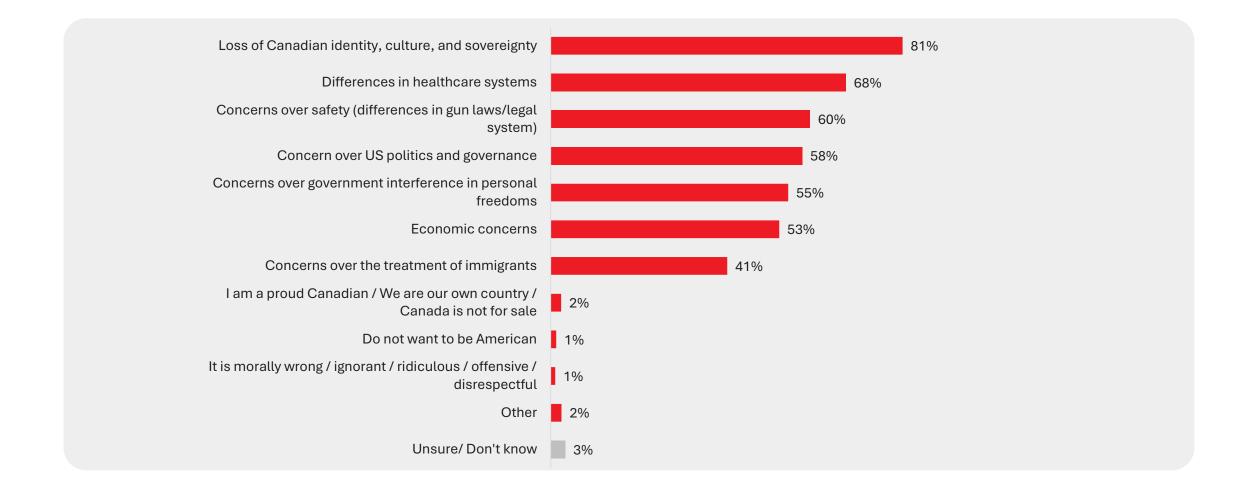

Women, those 55+ and those in the Atlantic region are even more likely to oppose. While still a minority, men and younger adults are more likely to support becoming the 51st state.

Q4.4 All things considered, do you support the idea of Canada becoming the 51st state of the United States? Base: All respondents (n=1,504)

There are many reasons why Canadians oppose becoming the 51st state, with the loss of Canadian identity, culture, and sovereignty topping the list.

Q4.4A Why do you OPPOSE the idea of Canada becoming the 51st state of the U.S.? Base: Those who oppose Canada becoming the 51st state (n=1,314)

Some regional differences emerge in the reasons for opposing Canada becoming the 51st state, particularly regarding identity, safety, governance, and the treatment of immigrants.

Q4.4A Why do you OPPOSE the idea of Canada becoming the 51st state of the U.S.? Base: Those who oppose Canada becoming the 51st state (n=1,314)

Stronger economy and national defense are the top reasons for supporting becoming the 51st state.

Q4.4A Why do you SUPPORT the idea of Canada becoming the 51st state of the U.S.? Base: Those who support Canada becoming the 51st state (n=129)

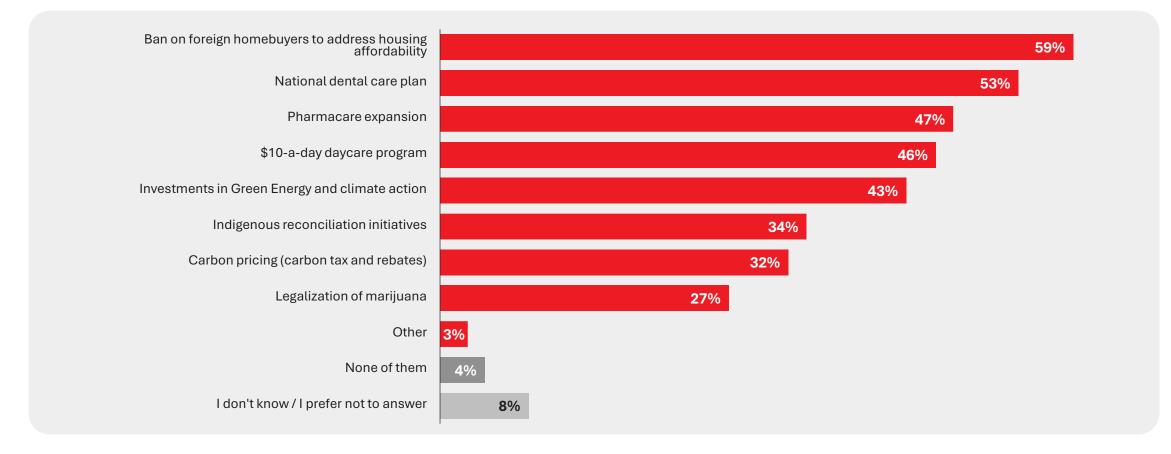

Priority Policies

More than half of Canadians believe the ban of foreign homebuyers and the national dental care plan should be continued regardless of who gets elected.

The legalization of marijuana, carbon pricing, and Indigenous reconciliation initiatives are policies that Canadians are less likely to want to see continued.

Q6.1 Again, regardless of who gets elected, which of the following policies of the current federal government should be continued? Check all that apply. Base: All respondents (n=1,504)

Canadians 35+ are more likely to say the ban of foreign homebuyers should be continued.

Those 55+ are more likely to say pharmacare expansion and investments in green energy and climate action should be continued.

At the time of survey, most Canadians felt the carbon tax needed to be revaluated; four in ten said it should be removed, and carbon pricing should be ended entirely.

Q5.1 As you may know, Canada has a carbon tax to address climate change. The federal carbon pricing system places a tax on fossil fuels, with revenues returned to households through rebates. Regardless of who gets elected, what do you think should happen to the current carbon tax policy? Base: All respondents (n=1,504)

Support for removing the carbon tax and ending carbon pricing entirely is even greater outside of Quebec.

Quebecers and women are most likely to say they're unsure about the issue.

Two thirds of Canadians agree that immigration is a significant factor contributing to housing prices in Canada.

There is not a lot of optimism for housing prices to become more affordable, nor do Canadians feel the provincial and federal governments are doing enough to manage the issue.

Q6.2 Thinking about housing in Canada, how much do you agree with each of the following statements? Base: All respondents (n=1,504)

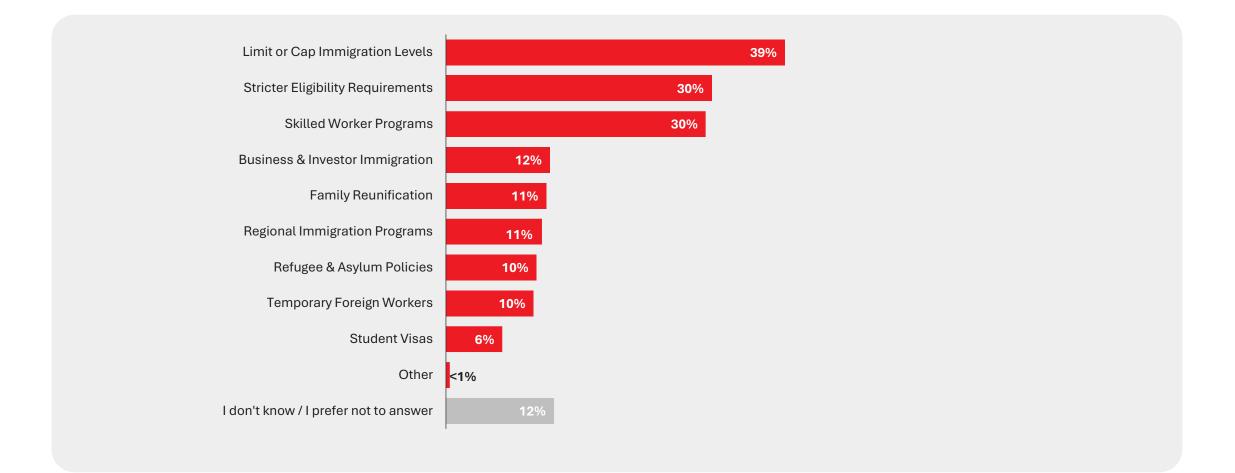

CPC voters are more likely than Liberal and NDP voters to agree that immigration is a significant factor contributing to increased housing prices in Canada.

Newcomers to Canada are more likely to be optimistic about affordable housing prices in the near future, and they're more likely to feel the government is doing enough to manage the issue.

% Agree (Somewhat + Strongly)	Total Canada	CPC	LPC	NDP	GPC	Born in Canada	lmmig. <11 years ago	lmmig. 11+ years ago

More Albertans oppose Danielle Smith's handling of Alberta Health Services than support it; one-third strongly oppose it.

Q8.1 Alberta Health Services (AHS) has faced allegations of mismanagement, inefficiencies, and political interference. Premier Danielle Smith has been critical of AHS, arguing that reforms are needed to improve healthcare delivery, including decentralizing decision-making and increasing private-sector involvement. Critics, however, claim that her approach undermines public healthcare and is politically motivated. How much do you support or oppose Danielle Smith's handling of the Alberta Health Services (AHS) situation? Base: Alberta residents (n=349)

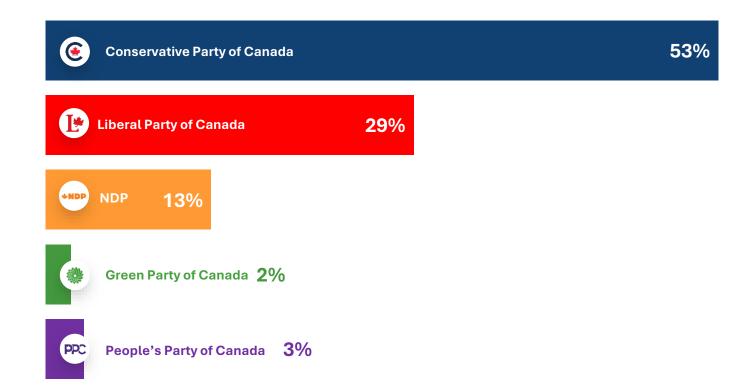

Approval (or lack thereof) of Danielle Smith's handling of the AHS situation is consistent across the regions and demographic subgroups.

	Total Canada	Calgary	Edmonton	Other regions of AB	Male	Female	18-34	35-54	55+
