

NORTH AMERICAN TRACKER

LeGER

April 29th, 2024

EDITION

THE CANADIAN PRESS 

Methodology

Method

Online survey among respondents 18 years of age or older.
(Canadian sample: n= 1,610/
American Samples: n= 1,008).
Respondents had the option of completing the survey in English or in French and were randomly recruited using LEO's online panel.

When

April 26 to
April 28, 2024

Margin of error

For comparison purposes, a probability sample of this size yields a margin of error no greater than $\pm 2.44\%$, (19 times out of 20) for the Canadian sample and $\pm 3.09\%$, (19 times out of 20) for the American sample

Weighting

Results were weighted according to **age, gender, mother tongue, region, education and presence of children in the household** in order to ensure a representative sample of the Canadian population and according to **age, gender, region, education, ethnicity, and number of people in the household** in order to ensure a representative sample of the American population.

Methodology

Significant differences

Data in bold **red** characters indicate a significantly lower proportion than that of other respondents. Conversely, data in bold **green** characters indicate a significantly higher proportion than that of other respondents.

Rounded data

The numbers presented have been rounded up. However, the numbers before rounding were used to calculate the sums presented and might therefore not correspond to the manual addition of these numbers.

Questions

Have questions about the data presented in this report? Please contact Christian Bourque, Executive Vice-President, Eastern Canada at the following e-mail addresses: cbourque@leger360.com

A more detailed methodology is presented in the Appendix.

Methodology

Leger is the polling firm that has presented the most accurate election survey data, on average, over the last ten years in Canada. During the last federal election in 2021, Leger was once again **the most accurate firm in the country**. This accuracy is attributed to the quality of the LEO panel and rigorous application of methodological rules by Leger's 600 employees, including 200 professionals in Leger's eight offices across Canada (Montreal, Toronto, Quebec City, Winnipeg, Calgary, Edmonton and Vancouver) and in the United States (New York).

Poll aggregator 338Canada.com gave Leger the highest rating among all polling firms in Canada for the accuracy of its studies. See <https://338canada.com/pollster-ratings.htm>

Key Highlights

Every month, we conduct a survey of Canadians and Americans to explore their views on the economy, finances, and politics. This month, our survey was conducted between April 26 and 29, 2024.

Some of the key highlights of our survey about the economy include...

- 62% of Canadians consider their household finances to be good, while 55% of Americans feel the same way.
- Six out of ten Canadians (62%) and 58% of Americans believe their respective country is in recession.
- Almost half of Canadians (46%) say they live paycheque to paycheque, while 55% of Americans say the same thing.

Some of the key highlights of our survey about American politics...

- If the Presidential election were to be held today, Trump would secure 46% of the votes, while Biden would secure 45%, making them statistically head-to-head.
- A larger proportion of Americans (39%) think that Trump will win the 2024 presidential election, while one-third (33%) think Joe Biden will win.
- One-third of Americans (34%) are not following Trump's trial at all, while 21% follow it closely and 42% follow it more or less. Democrat voters (25%) are more likely to follow the trial closely.
- If Trump is found guilty and imprisoned in his trial, 79% of Republican voters would still vote for him. If he is found guilty without imprisonment, 86% of Republicans would still vote for him.
