

Report

CANADIANS' OPINIONS ON KEY ISSUES

THE CANADIAN PRESS 

April 26, 2019

METHODOLOGY

METHODOLOGY

Web survey using computer-assisted Web interviewing (CAWI) technology.

From April 18 to April 22, 2019

1,522 Canadians, 18 years of age or older, who have the right to vote in Canada, randomly recruited from LegerWeb's online panel.

Using data from the 2016 Census, results were weighted according to age, gender, mother tongue, region and level of education in order to ensure a representative sample of the population.

No margin of error can be associated with a non-probability sample (Web panel in this case). However for comparative purposes, a probability sample of 1,522 respondents would have a margin of error of $\pm 2.52\%$, 19 times out of 20.

METHODOLOGY

Notes on Reading this Report

The numbers presented have been rounded up. However, the numbers before rounding were used to calculate the sums presented and might therefore not correspond to the manual addition of these numbers.

In this report, data in bold **red** characters indicate a significantly lower proportion than that of other respondents. Conversely, data in bold **green** characters indicate a significantly higher proportion than that of other respondents.

A more detailed methodology is presented in the annex.

If you have questions about the data presented in this report, please contact Christian Bourque, Associate and Executive Vice-President at the following e-mail address: cbourque@leger360.com

CANADIANS' POSITION ON BILL C-71

Q5. The Senate is currently studying a new piece of legislation, Bill C-71, which would modify the current legislation on firearms in Canada. Please tell me if you are in favour or opposed to the following proposed changes.

Base: All respondents (n=1,522)

■ Strongly in favour
 ■ Somewhat in favour
 ■ Somewhat opposed
 ■ Strongly opposed
 ■ DNK / Refusal
 TOTAL In Favour

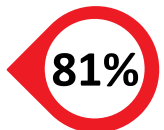

Making it mandatory that gun retailers keep a detailed inventory of all firearms sales and inventories, including make, model, type, serial number of the firearm along with the owner's references and licence numbers. The data would be accessible to the police or RCMP.

Extending the length of time, the RCMP can check into a person's background when applying for a gun permit from the last 5 years of that person's life (current legislation) to potentially that person's full life.

Making it mandatory for owners of restricted firearms (handguns for example) to obtain an Authorization to Transport before they travel or transport their restricted firearm.

CANADIANS' POSITION ON BILL C-71

– DETAILED RESULTS

Q5. The Senate is currently studying a new piece of legislation, Bill C-71, which would modify the current legislation on firearms in Canada. Please tell me if you are in favour or opposed to the following proposed changes.

Base: All respondents

APPENDIX

DETAILED METHODOLOGY

Sampling Frame

Participants were randomly selected from LegerWeb's online panel.

Leger owns and manages an Internet panel that includes more than 400,000 Canadians coast to coast. An online panel consists of Web users profiled according to different demographic variables. The majority of Leger's panel members (60%) were randomly recruited over the phone in the past ten years, which makes this panel very similar to the current Canadian population on a number of demographic characteristics. Moreover, 35% of panellists were recruited through affiliate programs and 5% through partner campaigns and programs.

To be eligible, respondents were required to be 18 years of age or older and have the right to vote in Canada.

DETAILED METHODOLOGY

Weighted and Unweighted Sample

The table below presents the geographic distribution of respondents before weighting.

Province	Unweighted	Weighted
British Columbia	150	207
Alberta	128	173
Saskatchewan	63	45
Manitoba	65	53
Ontario	604	578
Quebec	412	355
New Brunswick	34	33
Nova Scotia	27	42
Prince-Edward-Island	13	11
Newfoundland and Labrador	26	20

DETAILED METHODOLOGY

Weighted and Unweighted Sample

The following tables present the demographic distribution of respondents according to gender, age, language (mother tongue), level of education and household income.

GENDER	Unweighted	Weighted
Male	776	732
Female	746	784

AGE	Unweighted	Weighted
Between 18 and 34	228	397
Between 35 and 55	590	519
55 or over	704	600

LANGUAGE (MOTHER TONGUE)	Unweighted	Weighted
English	349	321
French	959	965
Other	212	227

EDUCATION	Unweighted	Weighted
Primary/secondary school	354	472
College	481	626
University	676	401

The sample thus collected has a minimum weighting factor of 0.164 and a maximum weighting factor of 4.140. The weighted variance is 0.355.
