# FEDERAL POLITICS

THE CANADIAN PRESS 

July 25<sup>th</sup>, 2019

Leger

## METHODOLOGY

Web survey using computer-assisted Web interviewing (CAWI) technology.

From July 19<sup>th</sup> to July 23<sup>th</sup>, 2019

1,536 Canadians, 18 years of age or older, who have the right to vote in Canada, randomly recruited from LegerWeb's online panel.

Using data from the 2016 Census, results were weighted according to age, gender, mother tongue, region and level of education in order to ensure a representative sample of the population.

No margin of error can be associated with a non-probability sample (Web panel in this case). However for comparative purposes, a probability sample of 1,536 respondents would have a margin of error of  $\pm 2.50\%$ , 19 times out of 20.

# METHODOLOGY

## Notes on Reading this Report

The numbers presented have been rounded up. However, the numbers before rounding were used to calculate the sums presented and might therefore not correspond to the manual addition of these numbers.

In this report, data in bold **red** characters indicate a significantly lower proportion than that of other respondents. Conversely, data in bold **green** characters indicate a significantly higher proportion than that of other respondents.

A more detailed methodology is presented in the annex.

If you have questions about the data presented in this report, please contact Christian Bourque, Associate and Executive Vice-President at the following e-mail address: [cbourque@leger360.com](mailto:cbourque@leger360.com)

# FEDERAL VOTING INTENTIONS

Q1A/Q1B. If FEDERAL elections were held today, for which political party would you be most likely to vote? Would it be for...?

*In the event a respondent had no opinion, the following prompting question was asked: Even if you have not yet made up your mind, for which of the following political parties would you be most likely to vote? Would it be for...*

Base: All respondents, except for Yves-François Blanchet, Quebecers only (n=413)

# APPENDIX

# DETAILED METHODOLOGY

## Sampling Frame

Participants were randomly selected from LegerWeb's online panel.

Leger owns and manages an Internet panel that includes more than 400,000 Canadians coast to coast. An online panel consists of Web users profiled according to different demographic variables. The majority of Leger's panel members (60%) were randomly recruited over the phone in the past ten years, which makes this panel very similar to the current Canadian population on a number of demographic characteristics. Moreover, 35% of panellists were recruited through affiliate programs and 5% through partner campaigns and programs.

To be eligible, respondents were required to be 18 years of age or older and have the right to vote in Canada.

# DETAILED METHODOLOGY

## Weighted and Unweighted Sample

The table below presents the geographic distribution of respondents before weighting.

Province	Unweighted	Weighted
British Columbia	153	209
Alberta	127	175
Saskatchewan	65	56
Manitoba	61	44
Ontario	615	587
Quebec	413	362
New Brunswick	35	40
Nova Scotia	37	36
Prince-Edward-Island	14	15
Newfoundland and Labrador	16	15

# DETAILED METHODOLOGY

## Weighted and Unweighted Sample

The following tables present the demographic distribution of respondents according to gender, age, language (mother tongue), level of education and household income.

GENDER	Unweighted	Weighted
Male	861	733
Female	675	806

AGE	Unweighted	Weighted
Between 18 and 34	349	413
Between 35 and 55	639	527
55 or over	548	600

LANGUAGE (MOTHER TONGUE)	Unweighted	Weighted
English	992	1,026
French	334	323
Other	207	187

EDUCATION	Unweighted	Weighted
Primary/secondary school	350	492
College	467	616
University	707	416

The sample thus collected has a minimum weighting factor of 0.185 and a maximum weighting factor of 3.283. The weighted variance is 0.339.
