Report

FEDERAL POLITICS

THE CANADIAN PRESS

September 11th, 2019

METHODOLOGY

METHODOLOGY

Web survey using computer-assisted Web interviewing (CAWI) technology.

From September 6th to September 9th, 2019

1,546 Canadians, 18 years of age or older, who have the right to vote in Canada, randomly recruited from LegerWeb's online panel.

Using data from the 2016 Census, results were weighted according to age, gender, mother tongue, region and level of education in order to ensure a representative sample of the population.

No margin of error can be associated with a non-probability sample (Web panel in this case). However for comparative purposes, a probability sample of 1,546 respondents would have a margin of error of ±2.49%, 19 times out of 20.

METHODOLOGY

The numbers presented have been rounded up. However, the numbers before rounding were used to calculate the sums presented and might therefore not correspond to the manual addition of these numbers.

In this report, data in bold **red** characters indicate a significantly lower proportion than that of other respondents. Conversely, data in bold **green** characters indicate a significantly higher proportion that that of other respondents.

A more detailed methodology is presented in the appendix.

If you have questions about the data presented in this report, please contact Christian Bourque, Associate and Executive Vice-Present at the following e-mail address: cbourque@leger360.com
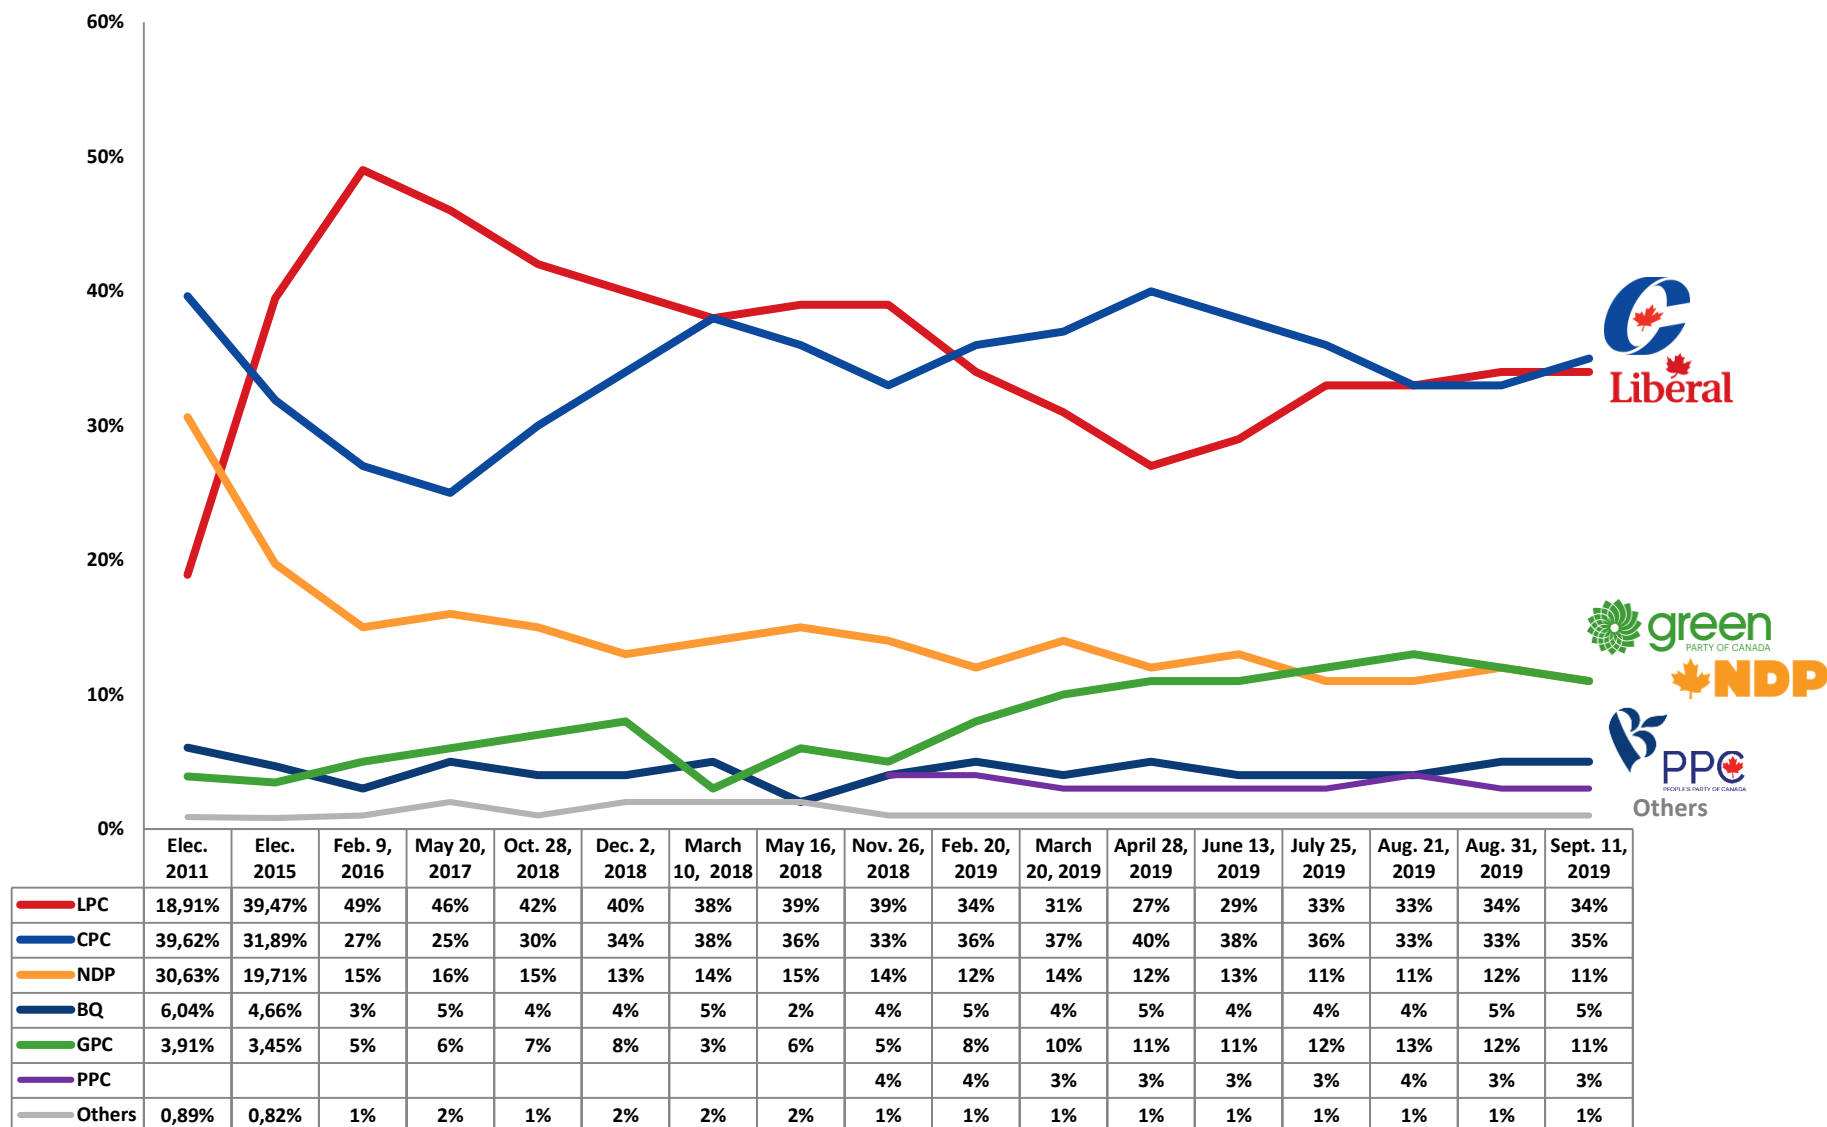

FEDERAL VOTING INTENTIONS

Q1A/Q1B. If FEDERAL elections were held today, for which political party would you be most likely to vote? Would it be for...?

In the event a respondent had no opinion, the following prompting question was asked: **Even if you have not yet made up your mind, for which of the following political parties would you be most likely to vote? Would it be for...**

Base: All respondents, except for Yves-François Blanchet, Quebecers only (n=436)

	TOTAL Eligible voters	TOTAL Decided voters	ATL	QC	ON	MB/SK	AB	BC	Male	Female	18-34	35-54	55+	August 31, 2019	Varia-tion

APPENDIX

DETAILED METHODOLOGY

Sampling Frame

Participants were randomly selected from LegerWeb's online panel.

Leger owns and manages an Internet panel that includes more than 400,000 Canadians coast to coast. An online panel consists of Web users profiled according to different demographic variables. The majority of Leger's panel members (60%) were randomly recruited over the phone in the past ten years, which makes this panel very similar to the current Canadian population on a number of demographic characteristics. Moreover, 35% of panellists were recruited through affiliate programs and 5% through partner campaigns and programs.

To be eligible, respondents were required to be 18 years of age or older and have the right to vote in Canada.

DETAILED METHODOLOGY

Weighted and Unweighted Sample

The table below presents the geographic distribution of respondents before weighting.

Province	Unweighted	Weighted
British Columbia	153	213
Alberta	128	176
Saskatchewan	44	47
Manitoba	85	55
Ontario	615	604
Quebec	446	369
New Brunswick	44	34
Nova Scotia	25	43
Prince-Edward-Island	13	6
Newfoundland and Labrador	20	24

DETAILED METHODOLOGY

Weighted and Unweighted Sample

The following tables present the demographic distribution of respondents according to gender, age, language (mother tongue), level of education and household income.

GENDER	Unweighted	Weighted
Male	797	764
Female	776	809

AGE	Unweighted	Weighted
Between 18 and 34	403	429
Between 35 and 55	519	517
55 or over	651	627

LANGUAGE (MOTHER TONGUE)	Unweighted	Weighted
English	953	1,034
French	396	327
Other	222	210

EDUCATION	Unweighted	Weighted
Primary/secondary school	389	505
College	486	627
University	688	428

The sample thus collected has a minimum weighting factor of 0.160 and a maximum weighting factor of 4.373. The weighted variance is 0.307.
