reputation in Canada

- 1. The only study that provides a comprehensive sector-by-sector analysis of the reputation of more than 300 companies in Canada, conducted with more than 30,000 Canadians; a reference for more than 25 years.
- 2. Using Leger's exclusive model, it measures the 6 core pillars of corporate reputation: financial strength, social responsibility, honesty and transparency, quality, attachment, innovation.
- **3.** Analysis of the reputation of companies over the last 5 years; reasons for negative opinions; comparative performance measurement of the 6 components of reputation; benchmark your results and those of your competitors; special analysis of reputation by gender and generation; customer vs general population analysis.
- **4.** 5 key variables to assess your employer brand and compare you to your competitors in the context of labour scarcity: **employer score, values, future, ambience, attractiveness.** You will receive the details on all the variables for all companies in your sector and your employer score (which will now be compared to the norm in your sector of activity, and all of the sectors in the study); all the information you need to evaluate and compare yourself as an employer.
