IN COLLABORATION WITH

*The Atlantic*

Reactions to the Overturning of  
Roe v. Wade

July 1-3, 2022

# METHODOLOGY

## METHODOLOGY

Leger, the largest Canadian-owned polling and marketing research firm, in collaboration with The Atlantic, conducted this Web survey with a representative sample of **1,001 Americans**, over the age of 18, selected from LEO's (Leger Opinion) representative panel. Data collection took place from **July 1<sup>st</sup>, 2022 to July 3<sup>rd</sup>, 2022**, via Computer-Assisted Web Interviewing technology (CAWI). Using 2010 U.S. Census reference variables, the American data was then analyzed and weighted by our statisticians according to gender, age, region, race/ethnicity, household size and education level in order to render a representative sample of the general population.

A margin of error cannot be associated with a non-probability sample in a panel survey. For comparison purposes, a probability sample of this size would have a margin of **±3.09%, 19 times out of 20**. The results presented in this study comply with the public opinion research standards and disclosure requirements of CRIC (the Canadian Research and Insights Council) and the global ESOMAR network. Leger is a founding member of CRIC and is actively involved in raising quality standards in the survey industry. President Jean-Marc Léger is a member of the CRIC's Board of Directors and the Canadian representative of ESOMAR.

Leger is the polling firm that has presented the most accurate data, on average, over the last ten years in Canada. During the last federal election in 2019, Leger was once again the most accurate firm in the country. This accuracy is attributed to the quality of the LEO panel and rigorous application of methodological rules by Leger's 600 employees, including 200 professionals in Leger's eight offices across Canada (Montreal, Toronto, Quebec City, Winnipeg, Calgary, Edmonton and Vancouver) and in the United States (Philadelphia).

Poll aggregator 338Canada.com gave Leger the highest rating among all polling firms in Canada for the accuracy of its studies. See <https://338canada.com/pollster-ratings.htm>

## Notes on Reading this Report

The numbers presented have been rounded. However, the numbers before rounding were used to calculate the sums presented and might therefore not correspond to the manual addition of these numbers.

In this report, data in bold **red** characters indicate a significantly lower proportion than Total. Conversely, data in bold **green** characters indicate a significantly higher proportion than Total.

A more detailed methodology is presented in the appendix.

If you have questions about the data presented in this report, please contact Simon Jaworski, President at the following e-mail address: [sjaworski@leger360.com](mailto:sjaworski@leger360.com)

# Among Participants Who Could Become Pregnant

Do You Have A Uterus, And Are You Currently Between The Ages Of 15 And 45?  
*(U.S. adults, n=340)*

■ Yes ■ No

Birth Control Use  
*(Participants Who Could Become Pregnant, n=205)*

■ Yes ■ No

*Among Those Participants Who Could Become Pregnant*

*If abortion if further restricted, 18% of those without birth control would consider getting an IUD/Implant (n=118)*

ATL1: Do you have a uterus, and are you currently between the ages of 15 and 45?

ATL2: Do you currently use an IUD or implant for birth control?  
 ATL3: If abortion is further restricted in your state, would you consider getting an IUD or implant?

# Awareness and Familiarity of Roe v. Wade

**ATL4: Have you heard of Roe vs. Wade?**

Base: All respondents (n=907)

**ATL5: How familiar are you with Roe vs. Wade?**

Base: Those who have Heard of Roe vs. Wade (n=876)
