

THE ATLANTIC-LEGER POLL

## PORNOGRAPHY CONSUMPTION AMONG AMERICANS

## METHODOLOGY

Leger,the largest Canadian-owned polling and marketing research firm, in collaboration with The Atlantic, conducted this Web survey with a representative sample of $\mathbf{1 , 0 0 2}$ Americans, over the age of 18, selected from LEO's (Leger Opinion) representative panel. Data collection took place from May $\mathbf{2 1}^{\text {st }}, 2021$ to May 23 ${ }^{\text {rd }}, \mathbf{2 0 2 1}$, via Computer-Assisted Web Interviewing technology (CAWI). Using 2010 U.S. Census reference variables, the American data was then analyzed and weighted by our statisticians according to gender, age, region, race/ethnicity, household size and education level in order to render a representative sample of the general population.

A margin of error cannot be associated with a non-probability sample in a panel survey. For comparison purposes, a probability sample of this size would have a margin of $\mathbf{\pm 3 . 0 9 \%}$, $\mathbf{1 9}$ times out of $\mathbf{2 0}$. The results presented in this study comply with the public opinion research standards and disclosure requirements of CRIC (the Canadian Research and Insights Council) and the global ESOMAR network. Leger is a founding member of CRIC and is actively involved in raising quality standards in the survey industry. President Jean-Marc Léger is a member of the CRIC's Board of Directors and the Canadian representative of ESOMAR.

Leger is the polling firm that has presented the most accurate data, on average, over the last ten years in Canada. During the last federal election in 2019, Leger was once again the most accurate firm in the country. This accuracy is attributed to the quality of the LEO panel and rigorous application of methodological rules by Leger's 600 employees, including 200 professionals in Leger's eight offices across Canada (Montreal, Toronto, Quebec City, Winnipeg, Calgary, Edmonton and Vancouver) and in the United States (Philadelphia).

Poll aggregator 338Canada.com gave Leger the highest rating among all polling firms in Canada for the accuracy of its studies. See https://338canada.com/pollster-ratings.htm

## METHODOLOGY

## Notes on Reading this Report

The numbers presented have been rounded. However, the numbers before rounding were used to calculate the sums presented and might therefore not correspond to the manual addition of these numbers.

In this report, data in bold red characters indicate a significantly lower proportion than that of other respondents. Conversely, data in bold green characters indicate a significantly higher proportion that that of other respondents.

A more detailed methodology is presented in the appendix.

If you have questions about the data presented in this report, please contact Christian Bourque, Associate and Executive Vice-Present at the following e-mail address: cbourque@leger360.com

## WATCHING PORNOGRAPHY

ATL1. Have you ever watched pornography?
Base: All respondents ( $n=1,002$ )

|  |  | $\begin{aligned} & \text { TOTAL } \\ & \text { USA } \end{aligned}$ | North- <br> East | Mid- <br> West | South | West | 18-34 | 35-54 | 55+ | Male | Female |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Weighted $\mathrm{n}=$ | 1,002 | 179 | 217 | 372 | 233 | 247 | 433 | 322 | 486 | 516 |

## APPENDIX

## DETAILED METHODOLOGY

## Weighted and Unweighted Sample

The table below presents the American geographic distribution of respondents before weighting.

| US region | Unweighted | Weighted |
| :--- | :---: | :---: |
| NorthEast | 192 | 179 |
| MidWest | 210 | 217 |
| South | 328 | 372 |
| West | 272 | 233 |

## DETAILED METHODOLOGY

Weighted and Unweighted Sample for The United States

The following tables present the demographic distribution of respondents according to gender and age for The United States.

| GENDER | Unweighted | Weighted |
| :--- | :---: | :---: |
| Male | 487 | 486 |
| Female | 515 | 516 |

| AGE | Unweighted | Weighted |
| :--- | :---: | :---: |
| Between 18 and 29 | 114 | 184 |
| Between 30 and 39 | 203 | 208 |
| Between 40 and 49 | 188 | 186 |
| Between 50 and 64 | 280 | 250 |
| 65 or older | 220 | 172 |
