

METHODOLOGICAL APPROACH

METHODOLOGY

Leger, the largest Canadian-owned polling and marketing research firm, conducted this web survey with a representative sample of **1,002 Americans**, over the age of **18**, selected from LEO's (Leger Opinion) representative panel. Data collection took place from **September 30th 2022**, to **October 2nd 2022**, via Computer-Assisted Web Interviewing technology (CAWI).

Using 2010 U.S. Census reference variables, the American data was then analyzed and weighted by our statisticians according to gender, age, region, race/ethnicity, household size and education level in order to render a representative sample of the general population.
