# 2022 QUEBEC'S PROVINCIAL ELECTION

# TABLE OF CONTENTS

METHODOLOGY

# METHODOLOGY

| | | |
|---|---|---|
| **METHOD** | A web survey was conducted among 600 respondents 18 years of age or older and eligible to vote in Quebec's election and living on the Island of Montreal or Laval. Respondents had the option of completing the survey in English or in French and were randomly recruited using LEO's online panel. | |
| **WHEN?** | The data was collected from **September 2nd to September 5th, 2022.** | |
| **MARGIN OF ERROR** | No margin of error can be associated with a non-probability sample (Web panel in this case). However, for comparative purposes, a probability sample of 600 respondents would have a margin of error of ±4%, 19 times out of 20. | |
| **WEIGHTING** | Results were weighted according to **gender, age, mother tongue, borough or city, education and presence of children in the household** in order to ensure a representative sample of the Montreal and Laval population. | |
| **SIGNIFICANT DIFFERENCES** | In this report, data in bold **red** characters indicate a significantly lower proportion than that of other respondents. Conversely, data in bold **green** characters indicate a significantly higher proportion that that of other respondents. | |
| **ROUNDED DATA** | The numbers presented have been rounded up. However, the numbers before rounding were used to calculate the sums presented and might therefore not correspond to the manual addition of these numbers. | |
| **QUESTIONS?** | If you have questions about the data presented in this report, please contact Christian Bourque Associate and Executive Vice-President at the following e-mail address:<br><br>cbourque@leger360.com<br><br>*A more detailed methodology is presented in the Appendix.* | |

# LEGER: THE MOST ACCURATE POLLING FIRM

Leger is the polling firm that has presented the most accurate data, on average, over the last ten years in Canada. During the last federal election in 2021, Leger was once again **the most accurate** **firm in the country**. This accuracy is attributed to the quality of the LEO panel and rigorous application of methodological rules by Leger's 600 employees, including 200 professionals in Leger's eight offices across Canada (Montreal, Toronto, Quebec City, Winnipeg, Calgary, Edmonton and Vancouver) and in the United States (Philadelphia).

Poll aggregator 338Canada.com gave Leger the highest rating among all polling firms in Canada for the accuracy of its studies. See  https://338canada.com/pollster-ratings.htm
